## WHAT DO WE MEAN WHEN WE SAY WE "STAND FOR THE FAMILY"?

We stand for the family unit that is based on both a mother and a father connected by biological bonds to their children whenever possible. Children have a right to be known and cared for by their mother and father in a legally sanctioned, faithful marriage.

## WHAT DO WE MEAN WHEN WE SAY WE "STAND FOR LIFE"?

We stand for life at all stages and support the rights of the preborn child. We promote social science and medically based positions regarding life in the womb and seek to educate others on the detrimental mental and physical consequences for women and girls when it comes to abortion.
